

Supplies Needed:

- White Printer Paper and Construction Paper (5-6 colors)
- Ruler, plastic preferred
- Pencil (for measuring/marking before making lines and labels in marker), Black Pen or Black Marker, coloring tools (color pencils, crayons, or markers)
- Scissors or Knife (**safety restrictions for usage**) and a Cutting Board or Surface that can risk being damaged
- Scotch Tape (optional)

1) Draw this horizontal line 1/2 inch from top of page. This is an area for your personalized title.

3) Starting with 3/4 inch from your title line, make a horizontal line, then the next is 1/2 an inch, and then continue by alternating these horizontal spaces. The large boxes are for time slots, and the smaller boxes are for spaces between.

4) Label the time slots beginning with 8:00 and ending with 3:00. Use a pencil first so you can fix any mistakes. Then, decorate the small boxes if desired, or at least color them with a solid color.

5) Give your daily plan a title.

6) **HAVE ADULT DO THIS PART!!!!** Place your sheet on a cutting board and cut along the left and right sides of your time slots. Be careful not to cut beyond these areas. Use the ruler to help guide the scissors or knife.

2) Use Ruler to draw these vertical lines 3 1/2 inches from sides of paper. You can do this in pencil first, then with marker.

7) Cut strips of paper (in at least 5 colors, or white paper) that are 5/8 of an inch wide and label with Activity Ideas or School Class Subjects. See next two pages for ideas, and last page for a visual reference to final product.
